-  **Portfolio:** ayonbhowmick.github.io/

CAREER GOAL

To begin my career in a challenging role where I can apply my knowledge of software development, machine learning, and data analysis to solve real-world problems. I want to work with experienced professionals, learn modern tools and industry practices, and take on responsibilities that strengthen my technical and problem-solving skills. My long-term goal is to grow into a skilled and dependable engineer who contributes to useful, high-quality products and to the success of the organization.

RESEARCH INTERESTS

Machine Learning, Deep Learning, Natural Language Processing (NLP), Data Mining, Computer Vision, Data Science.

EDUCATION

American International University Bangladesh (AIUB)
B.Sc in Computer Science and Engineering | CGPA: 3.71/4.00

Dhaka, Bangladesh
Jan 2023 - Oct 2026 (Expected)

TECHNICAL SKILLS

Programming: Python, C++, C#, JavaScript, PHP
Web & Software: HTML, CSS, .NET, Windows Forms, SQL, MySQL
AI/ML: PyTorch, Pandas, NumPy, Scikit-learn
Testing & QA: Manual & API Testing (Postman), Test Case Design, Selenium, SQA
Networking: TCP/IP, OSI, Subnetting, VLANs, Routing (OSPF), NAT, DHCP, DNS, Cisco Packet Tracer
Tools & OS: Git, GitHub, VS Code, Jupyter, Google Colab, Windows, Linux

PROJECTS

University Management System [Java, Swing, File I/O]

[GitHub](#)

- Developed a Java-based system for managing student, faculty, and administrative records.
- Implemented role-based login and tuition/scholarship fee management.
- Designed a GUI with persistent data storage using File I/O.

Café Shop Management System [C#, SQL Server]

[GitHub](#)

- Developed a C#-based café management system for handling daily operations and customer orders.
- Implemented role-based access for Admin and Cashier modules.
- Managed products, staff accounts, payments, receipts, and sales records using SQL Server.

Virus Invaders [C++, OpenGL, GLUT]

[GitHub](#)

- Developed a 2D game using C++, OpenGL, and GLUT with real-time player movement and animations.
- Implemented collision detection, virus attacks, health management, vaccine collection, and score tracking.
- Designed five progressive levels with dynamic weather effects and interactive gameplay.

SkillSwap Connect [PHP, MySQL, HTML, CSS, JavaScript]

[GitHub](#)

- Developed a web-based platform connecting learners and mentors for skill exchange and paid courses.
- Implemented role-based features for Learners, Mentors, and Admins with course and skill management.
- Built course requests, messaging, progress tracking, and certificate generation features.

Hasan, "Daily Peak Demand Forecasting in Bangladesh: A Leakage-Aware Comparison of Machine Learning, Deep Learning, and a Hybrid RF-Naive Model," *2026 International Conference on Power, Electronics, Communications, Computing, and Intelligent Infrastructure (PECCII)*, Pabna, Bangladesh, 2026, pp. 1-6, doi: [10.1109/PECCII70991.2026.11661966](https://doi.org/10.1109/PECCII70991.2026.11661966).

ACHIEVEMENTS & CERTIFICATIONS

- **Cisco Networking Academy** - Completed networking-related training and certification.
- **IEEE SPAVe 7.0** - Participated in the IEEE Student Professional Awareness Venture (SPAVe) 7.0 organized by the IEEE AIUB Student Branch.

EXTRACURRICULAR ACTIVITIES

- **Student Member**, IEEE AIUB Student Branch 2026 - Present
